COURSEWORK / SKILLS

- Data Structures &   Algorithms   • OOPS Concept   • Web Development

PROJECTS

Fundraising Platform ↗ | Spring Boot , Angular 19 , My Sql   **MM YYYY**

- Developed a full-stack fundraising platform with role-based access for Admin and Users. Admins can create, update, delete, and manage fundraising campaigns, including setting donation goals, campaign descriptions, start/end dates, and titles. Users can view active campaigns and securely make donations through an integrated payment gateway. Implemented robust backend REST APIs using Spring Boot and persistent data storage using MySQL. Angular 19 was used to build a responsive and dynamic user interface. .
- Live site here

Job Listing Portal ↗ | Node js , Mysql , React js , Express js   **MM YYYY**

- The Job Listing Portal is a full-stack web application that bridges the gap between job seekers and employers. This platform allows users to register, search for jobs, and apply to them seamlessly. On the other side, an admin can post job listings and write career-related articles to help users with professional development. .
